

# J-TEK™ Polartec® Jacket

JW44010

For warm protection, this J-TEK Polartec Jacket is made of Polartec® Wind Pro® FR fleece, which is a highly compact knit that improves wind and water repellency while retaining a soft and comfortable feel throughout the fabric. As with all of our Justin FR products, this Polartec Jacket is dual-certified to NFPA 2112 and 70E, along with an ATPV rating of 16. Key Design features include gusseted sides, zippered chest and sleeve pockets, and two hand warmer pockets. Perform better with trusted high performance products from Justin FR.

### Features and Benefits:

- A** The Polartec Wind Pro FR Fleece fabric provides thermal insulation and resistance to wind and water
- B** Highly compact knit offers breathability and durable softness to the touch
- C** FR zipper made of Vislon Nomex® for full zipper closure
- D** Mock neck collar for added protection against the weather
- E** Gusseted sides provide J-TEK performance articulation for the day to day movement
- F** Two, vertical chest pockets with FR Vislon Nomex zipper closure
- G** One left bicep pocket with FR Vislon Nomex zipper closure
- H** Two, vertical front welt pockets

**Fabric Construction:** 11 oz 44% Viscose, 39% Modacrylic, 14% Para-aramid, 3% Spandex
