

# J-TEK™ Polartec® Hoodie

JW44030

When the temperature drops and you need protection from the weather, J-TEK Polartec Hoodie will keep you warm and comfortable throughout the day. Made of Polartec® Wind Pro® FR fleece, which is a highly compact knit that improves wind and water repellency while retaining a soft and comfortable feel throughout the fabric. As with all of our Justin FR products, this Polartec Hoodie is dual-certified to NFPA 2112 and 70E, along with an ATPV rating of 16. Key design features include adjustable hoodie with a mock neck collar, two front pockets with zip closure and contrast, flatlock stitching at seams for added durability and modern look. Perform better with trusted high performance products from Justin FR.

## Features and Benefits:

- A** The Polartec Wind Pro FR Fleece fabric provides thermal insulation and resistance to wind and water
- B** Highly compact knit offers breathability and durable softness to the touch
- C** FR zipper made of Vislon Nomex® for full zipper closure
- D** Mock neck collar and adjustable hood
- E** Two, front hand warmer pockets with FR Nomex zippers for secure storage
- F** Contrast flatlock stitching at seams for added durability and modern look
- G** Embroidered Justin FR logo on left sleeve

**Fabric Construction:** 11 oz 44% Viscose, 39% Modacrylic, 14% Para-aramid, 3% Spandex
